A new World Cup's podium for Danny Hart

### UCI World Cup – Fort William - Scotland

Year by Year, the world cup of Fort William is becoming one of the most important events in the MTB's world. For sure the town is famous for the lochness' lake, but it's also a fabulous track with good conditions.

More than 20.000 spectators on the site, and also certainly more than 70.000 on a lot of website like [www.universalbikeracing.com](http://www.universalbikeracing.com) with live streaming.

Danny Hart is at home, and after is winning last week in Andorra, wants to prove that he's one of the Top Riders. David, trying to be consistent, knows that Fort William is a good track for him...

Weather is abnormally dry: this is the first time that I see the track like this. Riders are fast, track become amazing, and a lot of riders crashes or has puncture...But not the riders of the team 😊

Danny proves another time that he likes his team and also his DH 920: 4th in the first run, he catches a 3<sup>rd</sup> place in final, with a perfect run. At the World Cup Overall, Danny is now in the 3<sup>rd</sup> place, just 5 points behind the leader.
